Grandview C-4 School District Board Member and Students Participate as Talent for Time Warner Production

Martin City K-8 & Grandview Middle School Students Featured

Grandview, MO - Students from Martin City K-8 and Grandview Middle School participated as the talent for three "Innovation Nation" show segments filmed at Martin City on Tuesday, September 15. "Innovation Nation" (a public service production from Time Warner) is a series of educational programs featuring scientific experiments and projects conducted by elementary, middle and high school students from Kansas City area school districts. The show is aired throughout the year on various In Demand channels on the Time Warner network.

The MC and GMS show segments were hosted by Elliott Threatt, Grandview C-4 Board of Education Member. Mr. Threatt (whose children attend the GC-4 district) is a Kansas City area business owner and resident. Participating students and their projects were Hannah Long (7th grade-MC) "How Color Affects Heat Absorption", Samuel Reed (8th grade-MC) "What Affects a Model Rocket's Flight?" and Timothy Dunn (6th grade-GMS) "Can Water Float on Water
